REINVENTING THE ART OF AIRFLOW SOLUTIONS WITH VOLTAS FLO SERIES

BY VOLTAS - A TATA PRODUCT

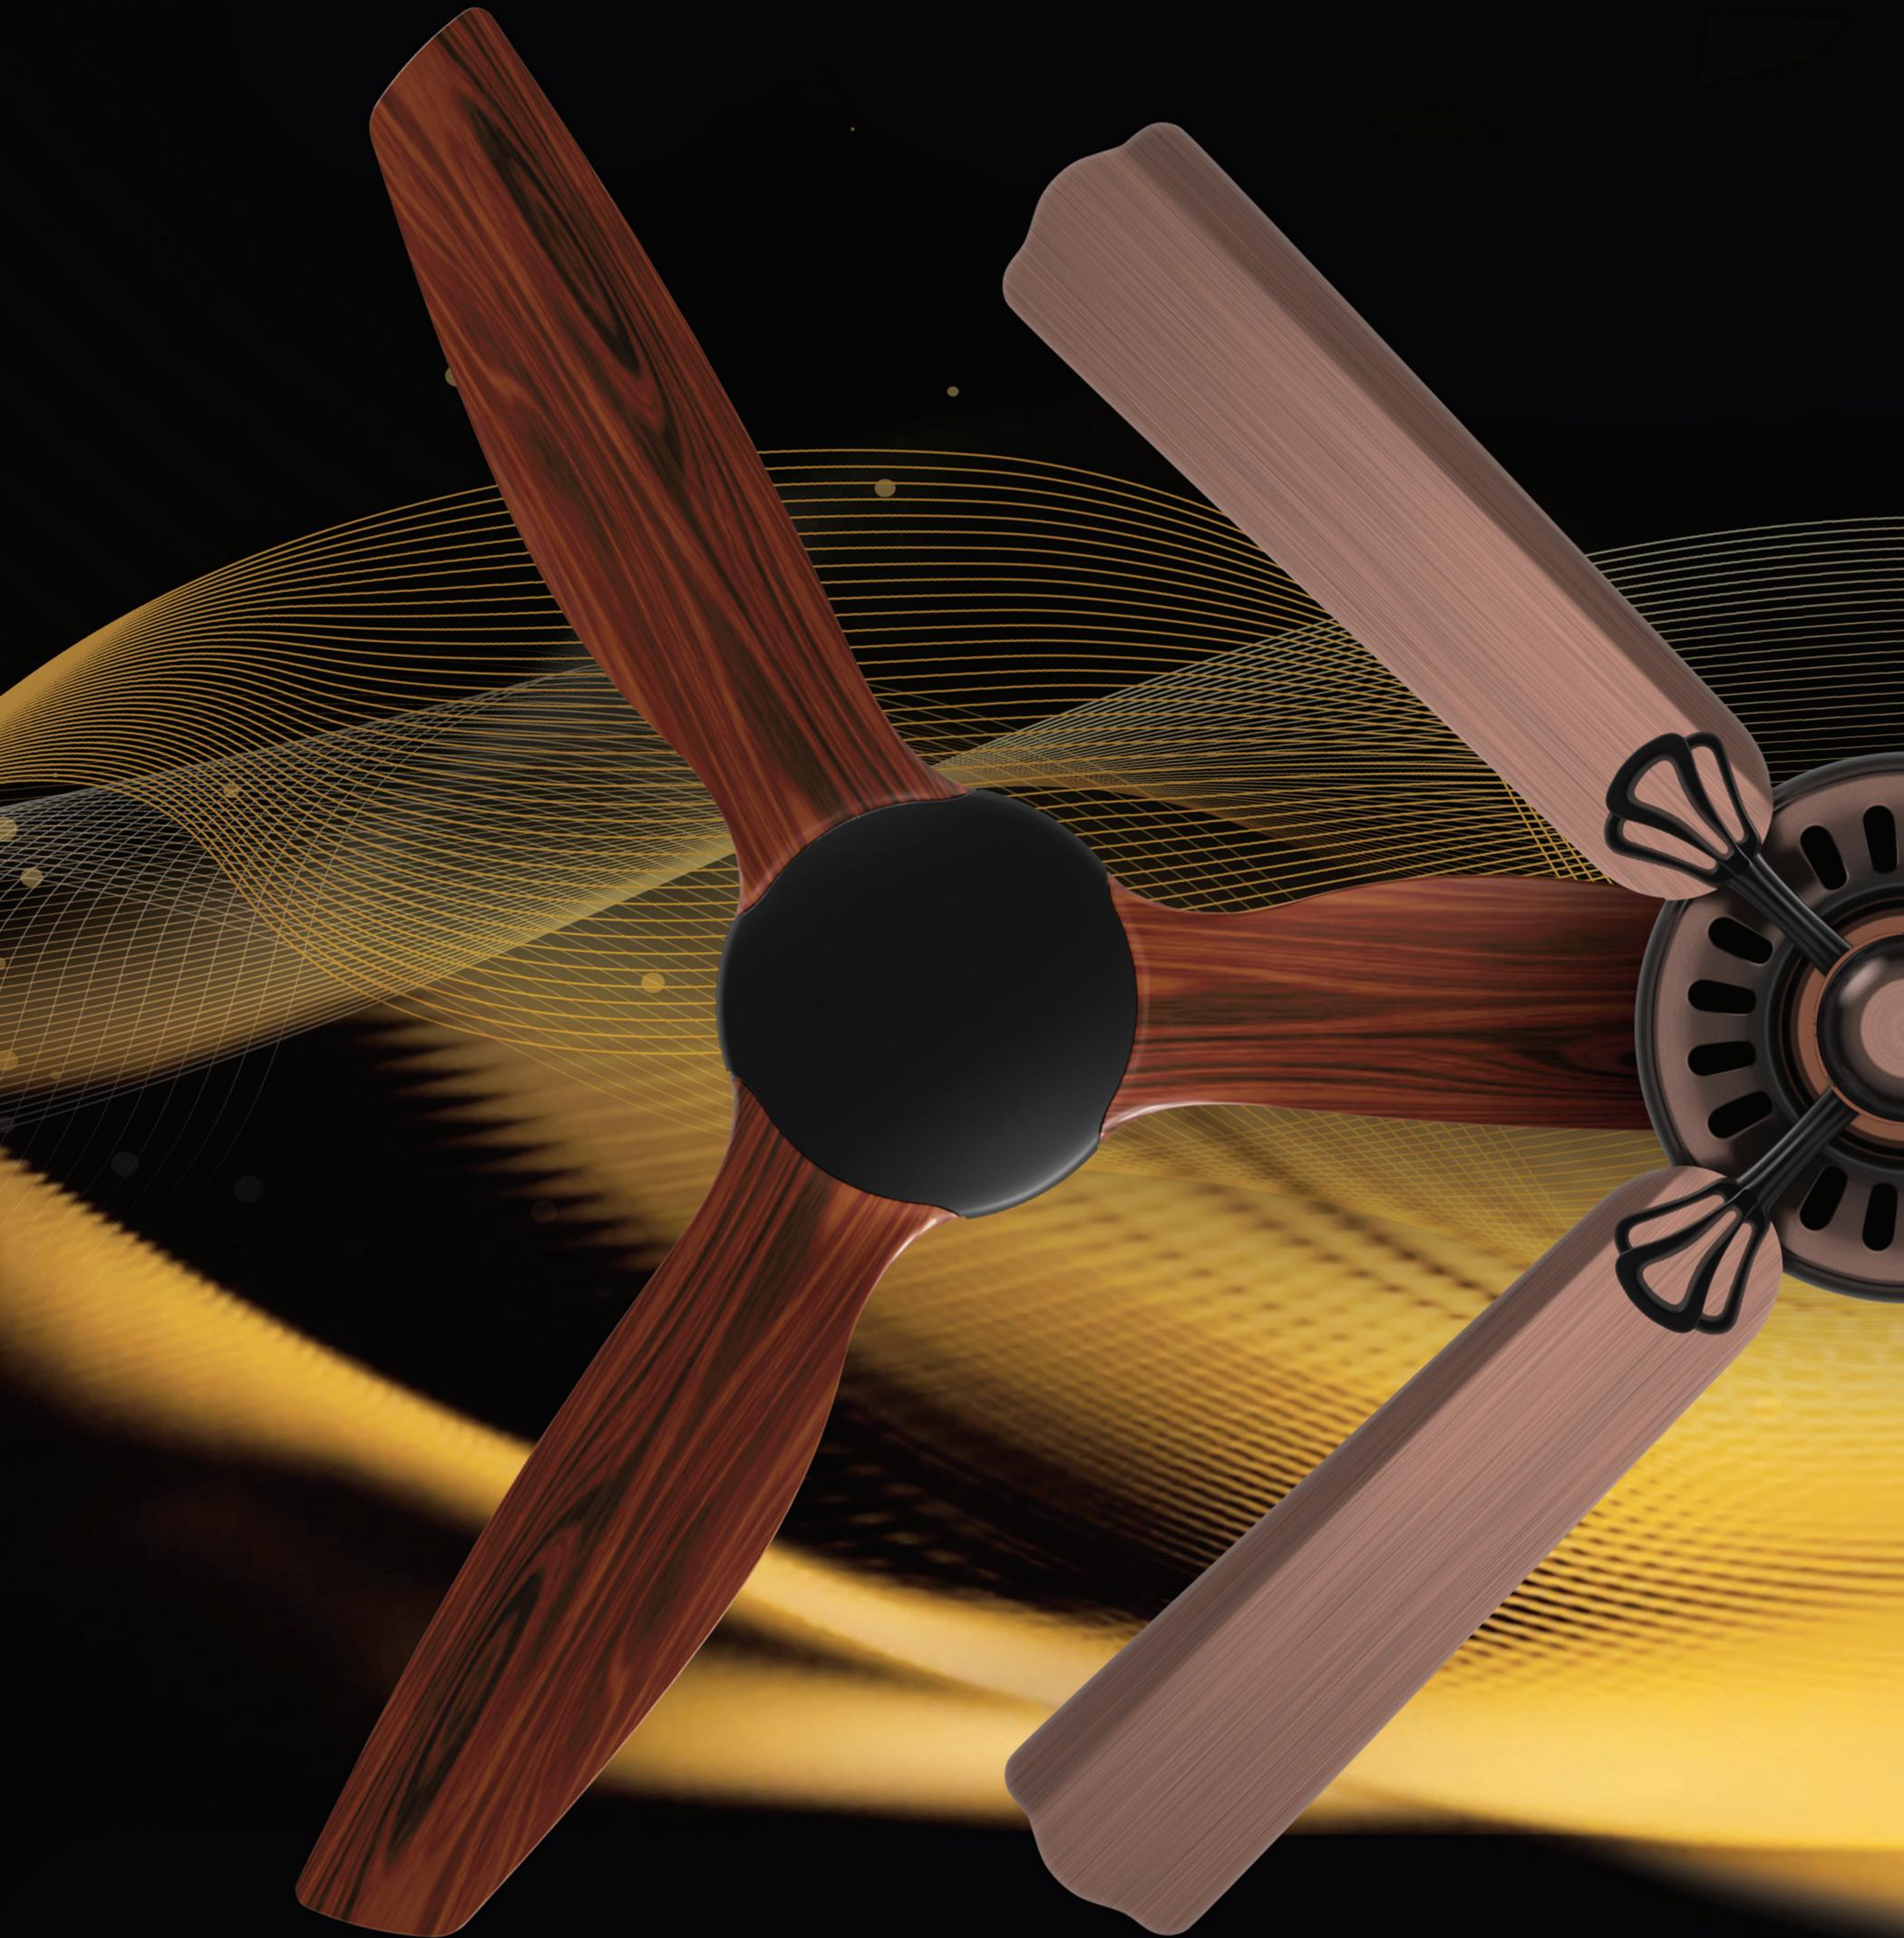

For over 150 years, TATA group has been a symbol of trust and innovation across industries. As a part of this legacy, Voltas has been India's leading name in cooling solutions, from air conditioners and commercial refrigeration. Now, Voltas is expanding its expertise with its launch of ceiling fans, bringing its signature reliability and efficiency to air flow solutions.

Introducing the Voltas FLO series, a premium range of fans designed for silent operation, energy efficiency, and elegant aesthetics, redefining home comfort with smart luxury.

♻️ In India, E-Waste (Management and Handling) Rules 2016 r/w E-Waste Management Amendment Rules 2022 has been notified by the Ministry of Environment, Forests and Climate Change Government of India. Voltas Limited (Voltas) stands committed to implement E-Waste Rules. Voltas has done tie-up with the government authorised E-Waste Recycler for facilitating our Channel partners/customers to dispose and/or discard Electrical and Electronic Products after its end-of-life (when a product/part is non-operational or non-repairable) and including spare parts. The authorised Recycler has expertise in assisting Voltas in fulfilling their compliances related to EPR and E-Waste Management. Channel partners/customers need to get in touch with Voltas Call Centre (9650694555) to dispose and/or discard Electrical and Electronic Products after its end-of-life. Channel partners/customers should contribute to resource conservation and prevent potential environmental problems by a simple action — the proper depositing of their old consumer durable products, its accessories or defective spares with authorised Recyclers. E-waste should be disposed of separately from the general waste stream via designated collection facilities identified by Voltas.
